How and why measure individual variability *(Symposium Proceedings: 7–10 July 2003)*
Chair: J. C. Mathers, *University of Newcastle, Newcastle, UK*

Chairman's introduction: What can we expect to learn from genomics?
J. C. Mathers 1–4
How to identify gene–environment interactions in a multifactorial disease: CHD as an example.
P. J. Talmud 5–10
Of mice and men: genetic determinants of iron status.
J. McGregor, A. T. McKie & R. J. Simpson 11–20

New insights into the molecular regulation of trace element metabolism *(Symposium Proceedings: 7–10 July 2003)*
Chair: J. Powell, *King's College, London, UK*

Intestinal and placental zinc transport pathways.
D. Ford 21–29
Molecular regulation of copper excretion in the liver.
C. Wijmenga & L. W. J. Klomp 31–39
Recent advances in the nutritional biochemistry of trivalent chromium.
J. B. Vincent 41–47

Alcohol: nutrient and gene interactions *(Symposium Proceedings: 7–10 July 2003)*
Chairs: V. Preedy and T. Peters, *King's College, London, UK*

Overview of the role of alcohol dehydrogenase and aldehyde dehydrogenase and their variants in the genesis of alcohol-related pathology.
D. W. Crabb, M. Matsumoto, D. Chang & M. You 49–63
Alcohol and cancer: genetic and nutritional aspects.
G. Pöschl, F. Stickel, X. D. Wang & H. K. Seitz 65–71
Genetic modification of the effect of alcohol consumption on CHD.
L. M. Hines 73–79
Alcohol, nutrition and health maintenance: selected aspects.
P. M. Suter 81–88

Nutrition Society Medal Lecture *(7–10 July 2003)*
Chair: J. C. Mathers, *University of Newcastle, Newcastle, UK*

Fatty acids and the immune system: from basic science to clinical applications.
P. Yaqoob 89–104

Postgraduate Symposium *(Symposium Proceedings: 7–10 July 2003)*
Chair: P. Emery, *King's College, London, UK*

Enteral feeding: the effect on faecal output, the faecal microflora and SCFA concentrations.
K. Whelan, P. A. Judd, V. R. Preedy & M. A. Taylor 105–113

Dietary PUFA and the metabolic syndrome in Indian Asians living in the UK.
L. M. Brady, C. M. Williams & J. A. Lovegrove 115–125

Ontogeny and nutritional manipulation of the hepatic prolactin–growth hormone–insulin-like growth factor axis in the ovine fetus and in neonate and juvenile sheep.
M. A. Hyatt, D. A. Walker, T. Stephenson & M. E. Symonds 127–135

Does diet have a role in the aetiology of rheumatoid arthritis?
D. J. Pattison, D. P. M. Symmons & A. Young 137–143

New insights into variability in lipid requirements *(Symposium Proceedings: 7–10 July 2003)*
Chairs: T. A. B. Sanders, *King's College, London, UK*; **K. N. Frayn,** *University of Oxford, Oxford, UK*

The quest for cardiovascular health in the genomic era: nutrigenetics and plasma lipoproteins.
J. M. Ordovas 145–152

Lipid metabolism in women.
C. M. Williams 153–160

Plenary Lecture *(7–10 July 2003)*
Chairs: M. Nelson and J. Thomas, *King's College, London, UK*

Nutrigenomics, individualism and public health.
R. Chadwick 161–166

Implications for dietary guidelines of genetic influences on requirements *(Symposium Proceedings: 7–10 July 2003)*
Chairs: M. Nelson and J. Thomas, *King's College, London, UK*

Individualized nutritional recommendations: do we have the measurements needed to assess risk and make dietary recommendations?
L. Arab 167–172

Public health nutrition and genetics: implications for nutrition policy and promotion.
I. Darnton-Hill, B. Margetts & R. Deckelbaum 173–185

Corrigendum 187

Introduction

Physical activity and health, novel concepts and new targets: report from the 12th Conference of the International Research Group on the Biochemistry of Exercise.
M. K. C. Hesselink & M. A. van Baak 189–197

Opening Lecture *(13–16 July 2003)*
Chair: H. Keizer, *Maastricht University, Maastricht, The Netherlands*

The biochemical basis of the health effects of exercise: an integrative view.
F. W. Booth & R. A. Shanely 199–203

Exercise signaling pathways controlling fuel oxidation during and after exercise *(Symposium Proceedings: 13–16 July 2003)*
Chair: A. Bonen, *University of Guelph, Guelph, Ontario, Canada*

Regulation of glucose transport by the AMP-activated protein kinase.
N. Fujii, W. G. Aschenbach, N. Musi, M. F. Hirshman & L. J. Goodyear 205–210

Exercise signalling to glucose transport in skeletal muscle.
E. A. Richter, J. N. Nielsen, S. B. Jørgensen, C. Frøsig, J. B. Birk & J. F. P. Wojtaszewski 211–216
Muscle glycogen and metabolic regulation.
M. Hargreaves 217–220
Transcriptional regulation of pyruvate dehydrogenase kinase 4 in skeletal muscle during and after exercise.
H. Pilegaard & P. D. Neufer 221–226
Exercise-induced mitogen-activated protein kinase signalling in skeletal muscle.
Y. C. Long, U. Widegren & J. R. Zierath 227–232
Regulation of glycogen synthase activity and phosphorylation by exercise.
J. N. Nielsen & J. F. P. Wojtaszewski 233–237

The fatty acid transporters of skeletal muscle *(Symposium Proceedings: 13–16 July 2003)*
Chair: J. Glatz, *Maastricht University, Maastricht, The Netherlands*

Studies of plasma membrane fatty acid-binding protein and other lipid-binding proteins in human skeletal muscle.
C. Roepstorff, J. Wulff Helge, B. Vistisen & B. Kiens 239–244
Regulation of fatty acid transport by fatty acid translocase/CD36.
A. Bonen, S. E. Campbell, C. R. Benton, A. Chabowski, S. L. M. Coort, X.-X. Han, D. P. Y. Koonen, J. F. C. Glatz & J. J. F. P. Luiken 245–249
Signalling components involved in contraction-inducible substrate uptake into cardiac myocytes.
J. J. F. P. Luiken, S. L. M. Coort, D. P. Y. Koonen, A. Bonen & J. F. C. Glatz 251–258
New concepts of cellular fatty acid uptake: role of fatty acid transport proteins and of caveolae.
J. Pohl, A. Ring, R. Ehehalt, T. Herrmann & W. Stremmel 259–262

Plenary Lecture *(13–16 July 2003)*
Chair: M. A. van Baak, *Maastricht University, Maastricht, The Netherlands*

The metabolic role of IL-6 produced during exercise: is IL-6 an exercise factor?
B. K. Pedersen, A. Steensberg, C. Fischer, C. Keller, P. Keller, P. Plomgaard, E. Wolsk-Petersen & M. Febbraio 263–267

Mechanisms involved in exercise-induced mitochondrial biogenesis in skeletal muscle *(Symposium Proceedings: 13–16 July 2003)*
Chair: J. O. Holloszy, *Washington University School of Medicine, St Louis, MO, USA*

Involvement of PPARγ co-activator-1, nuclear respiratory factors 1 and 2, and PPARα in the adaptive response to endurance exercise.
K. Baar 269–273
Role of calcium and AMP kinase in the regulation of mitochondrial biogenesis and GLUT4 levels in muscle.
E. O. Ojuka 275–278
The role of calcium and calcium/calmodulin-dependent kinases in skeletal muscle plasticity and mitochondrial biogenesis.
E. R. Chin 279–286
The role of uncoupling protein 3 in fatty acid metabolism: protection against lipotoxicity?
P. Schrauwen & M. K. C. Hesselink 287–292
Mitochondrial assembly: protein import.
D. A. Hood & A.-M. Joseph 293–300

New methodologies and insights in the regulation of fat metabolism during exercise *(Symposium Proceedings: 13–16 July 2003)*
Chair: A. Wagenmakers, *University of Birmingham, Birmingham, UK*

Intramyocellular triacylglycerol as a substrate source during exercise.
L. J. C. van Loon 301–307
Regulation and role of hormone-sensitive lipase in rat skeletal muscle.
M. Donsmark, J. Langfort, C. Holm, T. Ploug & H. Galbo 309–314
Regulation and role of hormone-sensitive lipase activity in human skeletal muscle.
M. J. Watt & L. L. Spriet 315–322
Basic disturbances in skeletal muscle fatty acid metabolism in obesity and type 2 diabetes mellitus.
E. E. Blaak 323–330

Muscle hypertrophy: the signals of insulin, amino acids and exercise *(Symposium Proceedings: 13–16 July 2003)*
Chair: M. K. C. Hesselink, *Maastricht University, Maastricht, The Netherlands*

Mechanotransduction and the regulation of protein synthesis in skeletal muscle.
T. A. Hornberger & K. A. Esser 331–335
Insulin-like growth factor 1 and muscle growth: implication for satellite cell proliferation.
S. Machida & F. W. Booth 337–340
Calcineurin and skeletal muscle growth.
R. N. Michel, S. E. Dunn & E. R. Chin 341–349
Regulation of protein synthesis associated with skeletal muscle hypertrophy by insulin-, amino acid- and exercise-induced signalling.
D. R. Bolster, L. S. Jefferson & S. R. Kimball 351–356
The role of ubiquitin–proteasome-dependent proteolysis in the remodelling of skeletal muscle.
D. Taillandier, L. Combaret, M.-N. Pouch, S. E. Samuels, D. Béchet & D. Attaix 357–361

Adipose tissue–liver–muscle interactions leading to insulin resistance *(Symposium Proceedings: 13–16 July 2003)*
Chair: K. N. Frayn, *University of Oxford, Oxford, UK*

Metabolic flexibility.
L. Storlien, N. D. Oakes & D. E. Kelley 363–368
Physiological regulation of NEFA availability: lipolysis pathway.
V. Stich & M. Berlan 369–374
The molecular mechanism linking muscle fat accumulation to insulin resistance.
M. W. Hulver & G. L. Dohm 375–380
Metabolic and hormonal interactions between muscle and adipose tissue.
E. Tomas, M. Kelly, X. Xiang, T.-S. Tsao, C. Keller, P. Keller, Z. Luo, H. Lodish, A. K. Saha, R. Unger & N. B. Ruderman 381–385

Adipose tissue development and the programming of adult obesity *(Symposium Proceedings: 7 June 2003)*
Chair: T. Stephenson, *University of Nottingham, Nottingham, UK*

Obesity epidemic in India: intrauterine origins?
C. S. Yajnik 387–396
Timing of nutrient restriction and programming of fetal adipose tissue development.
M. E. Symonds, S. Pearce, J. Bispham, D. S. Gardner & T. Stephenson 397–403

Prenatal programming of postnatal obesity: fetal nutrition and the regulation of leptin synthesis and secretion before birth.
I. C. McMillen, B. S. Muhlhausler, J. A. Duffield & B. S. J. Yuen 405–412
Appetite regulation and seasonality: implications for obesity.
C. L. Adam & J. G. Mercer 413–419

Malnutrition in obesity *(Symposium Proceedings: 19–20 November 2003)*
Chair: I. Fellows, *Norfolk and Norwich University Hospital, Norwich, UK*

Nutritional screening: pitfalls of nutritional screening in the injured obese patient.
I. Davidson & S. Smith 421–425

Nutrition in palliative care *(Symposium Proceedings: 19–20 November 2003)*
Chair: R. Richardson, *Victoria Infirmary, Glasgow, UK*

Food for life, love and hope: an exemplar of the philosophy of palliative care in action.
K. Hopkins 427–429
Nutritional support in patients with advanced cancer: permission to fall out?
A. W. McKinlay 431–435

Nutrition and metabolism in critical care *(Symposium Proceedings: 19–20 November 2003)*
Chair: A. Pierro, *Institute of Child Health, London, UK*

Anti-cytokine and anti-inflammatory therapies for the treatment of severe sepsis: progress and pitfalls.
D. J. Minnich & L. L. Moldawer 437–441
Endocrine modifications and interventions during critical illness.
F. Weekers & G. Van den Berghe 443–450
Optimal nutritional support.
N. Woodcock & J. MacFie 451–452

Sir David Cuthbertson Medal Lecture
Chair: A. Pierro, *Institute of Child Health, London, UK*

Fluid, electrolytes and nutrition: physiological and clinical aspects.
D. N. Lobo 453–466

All in one and one for all: off the shelf parenteral nutrition; Cordon Bleu or greasy spoon *(Symposium Proceedings: 19–20 November 2003)*
Chair: V. Bradnam, *Princess Royal University Hospital, Orpington, Kent, UK*

Nutritional requirements of surgical and critically-ill patients: do we really know what they need?
C. L. Reid 467–472

The Pennington Lecture
Chair: A. Forbes, *St Mark's Hospital, Harrow, UK*

Chronic idiopathic intestinal pseudo-obstruction: the need for a multidisciplinary approach to management.
D. B. A. Silk 473–480

How and why measure individual variability *(Symposium Proceedings: 7–10 July 2003)*
Chair: J. C. Mathers, *University of Newcastle, Newcastle, UK*

How are genes measured? Examples from studies on iron metabolism in pregnancy.
H. S. Andersen & H. J. McArdle 481–490

Implications for dietary guidelines of genetic influences on requirements
(Symposium Proceedings: 7–10 July 2003)
Chairs: M. Nelson and J. Thomas, *King's College, London, UK*

Diet, genes and disease: implications for nutrition policy.
M. J. Gibney & E. R. Gibney 491–500

Micronutrient interactions and public health *(Symposium Proceedings: 11–12 February 2004)*
Chairs: P. Sanderson and L. Levy, *Food Standards Agency, London, UK*;
J. C. Mathers and C. J. Seal, *University of Newcastle, Newcastle, UK*

Food Standards Agency: nutrition.
A. Tedstone 501–503
Findings from the latest National Diet and Nutrition Survey.
G. Swan 505–512
Are there functional consequences of a reduction in selenium intake in UK subjects?
M. J. Jackson, S. A. Dillon, C. S. Broome, A. McArdle, C. A. Hart & F. McArdle 513–517
Iron nutrition in the UK: getting the balance right.
S. J. Fairweather-Tait 519–528
Folate bioavailability.
H. McNulty & K. Pentieva 529–536
Effecting dietary change.
A. J. Adamson & J. C. Mathers 537–547
Workshop on funding opportunities within the Food Standards Agency.
M. Ashwell 549–552
Iron, copper and fetal development.
L. Gambling & H. J. McArdle 553–562
The molecular basis of copper and iron interactions.
P. Sharp 563–569
Folate, DNA stability and colo-rectal neoplasia.
S. J. Duthie, S. Narayanan, L. Sharp, J. Little, G. Basten & H. Powers 571–578
Dietary antioxidants and environmental stress.
F. J. Kelly 579–585
Micronutrients and cancer.
I. T. Johnson 587–595
B-vitamins, homocysteine metabolism and CVD.
J. J. Strain, L. Dowey, M. Ward, K. Pentieva & H. McNulty 597–603
Public health aspects of food fortification: a question of balance.
R. J. Fletcher, I. P. Bell & J. P. Lambert 605–614

Recent developments in diabetes care *(Symposium Proceedings: 8 April 2004)*
Chair: M. McGowan, *East Coast Area Health Board, Co. Wicklow, Republic of Ireland*

The evolution of the nutritional management of diabetes.
M. Moran 615–620

Plants as animal foods: a case of catch 22? *(Symposium Proceedings: 19 April 2004)*
Chairs: J. Houdijk, *Scottish Agricultural College, Edinburgh, UK*; **M. Gore,** *University Marine Biology Station, Millport, UK*

Antimicrobial properties of plant secondary metabolites.
R. J. Wallace 621–629

Plant secondary metabolites: antiparasitic effects and their role in ruminant production systems.
S. Athanasiadou & I. Kyriazakis 631–639

Developing qualitative research method skills: analyzing and applying your results
(workshop: 19 May and 24 October 2003)
Chair: K. Peploe, *Health Development Agency, London, UK*

The principles and application of qualitative research.
A. K. Draper 641–646
Using interpretative phenomenological analysis for public health nutrition and dietetic research: a practical guide.
S. Fade 647–653
Focus-group interview and data analysis.
F. Rabiee 655–660

Abstracts of Original Communications

Laparoscopy blunts the post-operative metabolic response to Nissen fundoplication in children.
M. McHoney, S. Eaton, D.P. Drake, E.M. Kiely, L. Spitz & A. Pierro 2A
Effects of intestinal ischaemia and reperfusion and moderate hypothermia on cardiac energy metabolism.
G. Stefanutti, P. Vejchapipat, S.R. Williams, A. Pierro & S. Eaton 2A
Operative stress influences monocyte HLA-DR expression following abdominal surgery in children.
M. McHoney, N. Klein, S. Eaton & A. Pierro 3A
Hepatic apoptotic signalling is attenuated following hypothermic intestinal ischaemia reperfusion.
E.J. Parkinson, P. Townsend, A. Stephanou, S. Eaton, D. Latchman & A. Pierro 3A
Endogenous cholecystokinin induces satiation to a meal by delaying gastric emptying in man.
S. Lal, J. Barlow, J. McLaughlin, M. D'Amato, G. Giacovelli, A. Varro, G. Dockray & D. Thompson 4A
Patients starving before percutaneous endoscopic gastrostomy (PEG) placement may be at risk of refeeding syndrome.
N. Bhala, A. Roberts, M. Alzouebi, J. Grant, F. Manzoor, D.S. Sanders & M.E. McAlindon 4A
Which member of a nutrition support team should prescribe total parenteral nutrition?
K.M. Farrer, L. Harper, J.L. Shaffer, I.D. Anderson, N.A. Scott & G.L. Carlson 5A
Direct percutaneous endoscopic jejunostomy (PEJ) for nutritional support in severely ill patients: a retrospective audit.
N.C. Fisher, A.J. Fairhurst & P. Deel-Smith 5A
Equity of nutrition screening in different settings across a health community.
M.M. Conroy & S.M. Littler 6A
Hyperchloraemic metabolic acidosis in home parenteral nutrition.
J. Groning & B. Jones 6A
An audit of enteral nutrition practice in the intensive care unit.
A.N. Milestone, M.J. Mostert, C. Barrera Groba & M.P. Jennings 7A
A survey of UK and Eire neonatal nutrition policies.
D.P. Tuthill on behalf of the Child Nutrition Panel 7A
Real-time measurement of enteral feed tolerance in critically ill patients: is there a role for electric impedance tomographic spectroscopy?
C.T. Soulsby, D.F. Evans, E. Yazaki & J. Powell-Tuck 8A

Prospective evaluation of nutritional status and outcome after oesophagectomy for carcinoma.
P.M. Murphy, G. Blackshaw & W.G. Lewis 8A
A prospective randomised controlled trial of nutritional supplementation in malnourished elderly in the community: clinical and health economic outcomes.
J. Edington, R. Barnes, F. Bryan, E. Dupree, G. Frost, M. Hickson, J. Lancaster, S. Mongia, J. Smith, A. Torrance, R. West, F. Pang & S.J. Coles 9A
Nutritional status of patients with gastric and oesophageal carcinoma undergoing potentially curative surgery.
P.M. Murphy, E.C. Cawdery & W.G. Lewis 9A
Obesity as a risk factor for adenocarcinoma of the oesophagus.
A. Ryan, P. Flood, S. Rowley & J.V. Reynolds 10A
The views and practices of oncologists towards nutritional support in patients receiving chemotherapy.
A. Spiro, C. Baldwin, A. Patterson & J. Andreyev 10A
A retrospective study of 'One-Step', low-profile 'Button', gastrostomy insertion.
S. White, M. Atkins, S. Clark, A. Torrance, L. Hodgson & K. Matthewson 11A
Percutaneous endoscopic gastrostomy (PEG) feeding tubes in children: 7-year experience in South Bedfordshire.
A. Outram, M. Davis, V. Chitre, H. Rollins & S. Cheslyn-Curtis 11A
Endoluminal brushing audit: a nutrition team's experience.
P. Deel-Smith, T.J. Digger & B.J.M. Jones 12A
Central line insertion complications.
J.E.M. Crozier, R.F. McKee & the Nutrition Support Team 12A
The outcome of inpatient parenteral nutrition.
R.F. McKee & the Nutrition Support Team 13A
A pilot study on peri-operative oral nutritional supplementation in malnourished peripheral vascular disease patients.
E. Ong, H. Cheong, S. Blair & C. Walsh 13A
Audit of the effect of 'nil by mouth' instructions on patient behaviour.
C.A. Best, S.W. Wolstenholme, J.E. Kimble, H.M. Hitchings & H.M. Gordon 14A
How should we assess post-operative complications for use as an outcome measure in nutritional research?
S.T. Burden, E. Stoppard, J. Hill, A.J. Makin, J. Shaffer & C. Todd 14A
Systemic oxidative stress following intestinal ischaemia and reperfusion: beneficial effects of moderate hypothermia.
G. Stefanutti, A. Pierro, L. Spitz & S. Eaton 15A
The probiotic organisms *Bifidobacterium bifidum* and *Lactobacillus acidophilus* do not inhibit the growth of pathogenic bacteria in infant formula.
N. Pickerd, D. Tuthill & S. Plummer 15A
Dietary modification in patients with Crohn's disease: towards a guide for dietitians' interventions.
A. Kato, C. Bullock & A. Forbes 16A
The weakest link: information dissemination in parenteral nutrition management.
E.G.P. Ong, S. Eaton & A. Pierro 16A
Education is needed to improve neonatal parenteral nutrition practice.
M. Ahmed, S. Irwin & D.P. Tuthill 17A
Concurrent validity of the newly developed Malnutrition Universal Screening Tool ('MUST') with Mini Nutritional Assessment and Subjective Global Assessment tools.
R.J. Stratton, A.J. Hackston, S. Price, K. Joseph & M. Elia 17A
Organisation of nutritional care services in the South Glasgow University Hospital Trust.
C. McAtear, F. Clark & G. McHattie 18A

Different dialects in Yorkshire: are we talking the same language? A survey of intravenous nutrition services across the West Yorkshire region.
J. Davies, J. Wood, J. Scantlebury, J. Eastwood & M.J. McMahon 18A
The need for enteral nutrition guidelines in surgical neonates: a tale of two countries.
E.G.P. Ong, S. Eaton & A. Pierro 19A
An analysis of the Clinical Hospital Knowledge System (CHKS) database to determine the prevalence of tube feeding in patients at nutritional risk in hospital, and to compare outcomes in a matched group of controls.
J. Edington, A. Saleh, I. Girod & F. Pang 19A
Experience of home parenteral nutrition (HPN) for patients with non-malignant and malignant disease.
L. Nicholls, K. Maden, C. Rudd, A. Lewin, M. Turzyniecka, K. Page & M. McAlindon 20A
Malnutrition risk and healthcare utilisation in orthopaedic patients.
C. Wood, S. Stubbs, H. Warwick, A. Dunnachie, M. Elia & R.J. Stratton 20A
Appropriate home enteral feeding in a nursing home: implementing a decision-making pathway to improve patient selection.
M.J. Gall & H.J. Wanstall 21A
Can knowledge and care in enteral feeding be improved by a training scheme for qualified nurses?
A. Culkin 21A
Safety of percutaneous endoscopic gastrostomy placement by a trained nurse practitioner.
R.J. Atkinson, J. Grant & M.E. McAlindon 22A
Does the input of a nutrition nurse specialist improve the outcome of patients referred for percutaneous endoscopic gastrostomy?
E. Wood, A. McMulkin, F.R. Vicary & V.S. Wong 22A
Extravasation injuries in surgical neonates and children.
M. Chowdhury, L.H. Wong, V. Horn, S. Eaton & A. Pierro 23A
Ultrasound guidance in the placement of a percutaneous endoscopic gastrostomy (PEG): a novel adjuvant technique in a patient with abdominal wall varices.
B.S. Hoeroldt, F.K.T. Lee, D. Gleeson, M.E. McAlindon & D.S. Sanders 23A
The cost of catheter-related sepsis.
K.B. Page, K.E. Maden, M.Y. Elsammak & M.E. McAlindon 24A
Incidence of catheter-related sepsis with different catheter types.
K.B. Page, K.E. Maden, M.J. Turzyniecka & M.E. McAlindon 24A
Human immune cells can convert linoleic acid to arachidonic acid.
T.M. Brooks, G.C. Burdge & P.C. Calder 25A
The level of protein in the diet of pregnant rats affects splenocyte phenotypes and responses in the offspring at weaning.
E.A. Miles, R.L. Dunn, A.A. Jackson & P.C. Calder 25A
Leptin receptor expression on human immune cells.
S.M. Clough, G.C. Burdge, J. Madden, E.A. Miles & P.C. Calder 26A
Are out-patients with gastrointestinal malignancy and at nutritional risk referred to a dietitian?
C. Baldwin, C. McGough, A.R. Norman, D. Cunningham, G. Frost & H.J.N. Andreyev 26A
Prevalence of malnutrition risk using the Malnutrition Universal Screening Tool ('MUST') within a district nurse-referred population.
C.L. King, S. Blaikley, A. Hackson, M.A. Stroud, M. Elia & R.J. Stratton 27A
A review of the role of nutrition in patients undergoing pelvic radiotherapy.
C.J. McGough, C. Baldwin, G. Frost & H.J.N. Andreyev 27A
Relationship between increased intake of isomers of conjugated linoleic acid and the appearance of those isomers in peripheral blood mononuclear cells in human subjects.
G.C. Burdge, J.J. Russell, S. Tricon, S. Kew, T. Banerjee, R.F. Grimble, C.M. Williams, P. Yaqoob & P.C. Calder 28A

Liver blood flow changes in critically ill patients.
P. Glen, D.C. Mcmillan, E. Leen & J. Kinsella 28A
Is catheter salvage of value in patients on home parenteral nutrition? A nine-year experience.
M.V. Kaushal, P.R. Chadwick, I.D. Anderson, N.A. Scott, J.L. Shaffer & G.L. Carlson 29A
The volume of enteral tube feed delivered to critically ill patients during their stay on an intensive care unit.
H.J. Peake & G.S. Frost 29A
Impact of a nutritional support team on the gastrostomy services within a district general hospital and community trust.
P. Edwards, J. Wykes, C. Edmondson, J. Power & S. Monk 30A
An investigation into the relationships between quality of life, nutritional status and physical function.
M. Hickson & G. Frost 30A
Jejunostomy feeding: friend or foe? A case report.
R.J. Hughes & N. Kumar 31A
Selenium and thyroid function in the elderly: results from the UK PRECISE Trial pilot study.
M.P. Rayman, A.J. Thompson, J. Catterick, M. Warren-Perry, J. Bliss, E. Hall & G.J. Beckett 33A
Effect of dietary changes in the *n*-6:*n*-3 polyunsaturated fatty acid ratio on plasma fatty acid status and insulin sensitivity.
C.S. Moore, S.P. Bryant, J.D. Krebs & S.A. Jebb 33A
Dietary polyphenols differentially regulate CD40-mediated VCAM-1 and tissue factor mRNA expression in human endothelial cells.
S.A. Rushworth, K. Everett & M.A. O'Connell 34A
The role of breakfast on micronutrient intakes of Irish adults.
M.A. Galvin, M. Kiely & A. Flynn 34A
Influence of vitamin D status on carboxylation of osteocalcin in older people from China and Britain.
L. Yan, B. Zhou, S. Nigdikar, J. Bennett & A. Prentice 35A
Mechanisms involved in copper uptake by human intestinal epithelial cells.
J.P. Tennant, T. Jai & P.A. Sharp 35A
Immunohistochemical localisation of iron transporter proteins in rat colon.
K.L. Johnston, R. Wood & P.A. Sharp 36A
Determination of urinary chromium as an indicator for available chromium following 75 g glucose oral ingestion.
M. Haji Faraji & A.R. Leeds 36A
Obese patients with metabolic syndrome have an increased dietary zinc:copper ratio.
M. Ghayour, S. New, A. Taylor, C. Livingstone, T. Wang & G. Ferns 37A
Iron status, dietary intake and HFE mutation.
Y. Padsar & M. Nelson 37A
Improved folate content of eggs by the addition of folic acid to the diet of laying hens.
L. Hoey, K. Pentieva, H. McNulty, M.E.E. McCann, K.J. McCracken & J.M. Scott 38A
Relationship between dietary intake of essential polyunsaturated fatty acids and plasma status in a food-based intervention study.
S.A. McNaughton, C.S. Moore, S.P. Bryant, N. Matthews, A.A. Paul & S.A. Jebb 38A
An investigation into the effects of carbohydrate–electrolyte ingestion on cardiovascular function and hydration status during exercise.
T. Griffin, M. Leveritt & C.H.S. Ruxton 39A
Effects of calcium supplementation on vitamin D status in 16–18-year-old girls.
A.M. Willett, F. Ginty & A. Prentice 39A

Identification of key foods as sources of bone-health nutrients: further developmental work of a Swiss food-frequency questionnaire.
E. Wynn, M.A. Krieg, J. Cornuz, D.R. Whittamore, P. Burckhardt & S.A. New 40A
Higher dietary protein:potassium ratio positively affects bone mineral changes in 16–18-year-old girls.
F. Ginty, M. Charles, C. Prynne & A. Prentice 40A
Effect of level of consumption of fortified foods on total folate and folic acid intake in Irish adults.
T. Joyce, E.M. Hannon, M. Kiely & A. Flynn 41A
A controlled intervention study to compare the bioavailability of synthetic folic acid with natural food folate extracts.
M.P.A. Hannon-Fletcher, H. McNulty, N.C. Armstrong, K. Pentieva, M. Ward, D.J. McKillop, J.J. Strain, R. McCreedy, J. Alexander, K. Patterson, A.M. Molloy & J.M. Scott 41A
Estimation of food folate bioavailability from a mixed diet: combined analysis from three intervention studies in young women.
G.J. Cuskelly, H. McNulty, M.R. Stevenson, F. McCullough, J.M. McPartlin, J.J. Strain & J.M. Scott 42A
Acceptability of different mixtures of wholegrain and white flour in spaghetti.
K. Ralston & A. Wise 42A
Comparison and preference of two national food guides in adults.
T. Cornwall, M.E. Clapham & I. Mullaney 43A
Health professionals' and elderly patients' views, attitudes and compliance with prescribed oral nutritional supplements.
H. Lad, M. Gott & S.E. Gariballa 43A
Baseline results for cognitive function in relation to nutrition risk of community-living older people from the Mineral and Vitamin Intervention Study trial.
A.I. Stephen, for the Mavis Trial Group 44A
Weight loss following advice to simultaneously reduce both dietary fat and sucrose or dietary fat: results from a 12-week intervention study.
C. White, A. deLooy & S. Drummond 44A
Weight gain reflects recent physical activity level and is independent of energy intake: a longitudinal study of early postmenopausal women.
H.M. MacDonald, A. Hardcastle, R. Sandison, S.A. New & D.M. Reid 45A
Comparison between an essential oil blend and oregano whole herb on growth performance in weaners.
G.M. Jones, H. Koller, F. Waxenecker & S. Pasteiner 48A
Duodenal flow of the chlorophyll metabolite phytanic acid in beef steers offered grass and red clover silages.
M.R.F. Lee, J.K.S. Tweed, R.J. Dewhurst & N.D. Scollan 48A
Studies on the fermentation patterns of wheat samples, differing in their chemical characteristics, using ileal microflora from chicks.
S. Shanmugavelu, V.R. Pirgozliev, J.D. Brooker, T. Acamovic & S.P. Rose 49A
Dietary Quillaja saponin during gestation does not affect colostrum immune profile but decreases stillbirth incidence at farrowing.
S.E. Ilsley & H.M. Miller 49A
Plasma homocysteine response to folic acid intervention in ischaemic heart disease patients: implications for food fortification policy.
P. Tighe, M. Ward, H. McNulty, O. Finnegan, J.J. Strain, A. Dunne, A.M. Molloy & J.M. Scott 51A

The use of stochastic modelling to estimate the potential benefit of fortifying white bread with folic acid for the prevention of neural tube defects.
T. Joyce, E.M. Hannon, M. Kiely & A. Flynn 51A
Folate depletion post-weaning suppresses large tumours in the *Apc*$^{+/min}$ mouse intestine.
J.A. McKay, E.A. Williams & J.C. Mathers 52A
The relationship between body mass index and B vitamin status.
M.A. Kerr, M.B.E. Livingstone, I. Bradbury, J.M. Scott, M. Ward, C.J. Bates & H. McNulty 52A
Diet variety and diet diversity of pregnant and lactating women.
I. Blossfeld, C.A. Martin & C.M. Delahunty 53A
Vitamin K_1 intake and status in two Irish female population groups.
A. Collins, K.D. Cashman & M. Kiely 53A
A comparison of vitamin D intake data from a food-frequency questionnaire with a 14 d dietary history and vitamin D status in three Irish female population groups.
A. Collins, M.M. O'Brien, T.R. Hill, A. Flynn, K.D. Cashman & M. Kiely 54A
Estimation of dietary acidity or alkalinity in British individuals aged 65 years and over from National Diet and Nutrition Survey (NDNS) datasets using estimates of net rate of endogenous non-carbonic acid production (NEAP) and potential renal acid load (PRAL).
R.H.T. Gannon, D.J. Millward, H.M. MacDonald, L.A. Frassetto, T. Remer & S.A. New 54A
Evaluation of a dietary checklist to assess fruit and vegetable consumption.
A.C. Hardcastle, R. Sandison, S.A. New, D.M. Reid & H.M. MacDonald 55A
Factors associated with compliance with the population goals for intakes of fruit and vegetables and dietary fibre in Irish adults.
M. Cosgrove, M.M. O'Brien, M.A. Galvin, A. Flynn & M. Kiely 55A
Size does not matter: validation of a micro-method for adipose tissue biopsy for measurement of fatty acid composition.
F.F.M. Chong, A.S.T. Bickerton, B.A. Fielding & K.N. Frayn 56A
Deleterious effects of skipping breakfast on lipid and carbohydrate metabolism in lean healthy women.
H.R. Farshchi, M.A. Taylor & I.A. MacDonald 56A
Dietary advice for prevention of type 2 diabetes mellitus in adults.
H.J. Moore, C.D. Summerbell, L. Hooper, V.J. Ashton, P. Johnstone & P. Kopelman 57A
Dietary advice for treatment of type 2 diabetes mellitus in adults.
H.J. Moore, C.D. Summerbell, L. Hooper, K. Cruickshank, A. Vyas, P. Johnstone, V.J. Ashton & P. Kopelman 57A
Investigation into the effects of initiating insulin therapy in type 2 diabetes.
R.M. Barratt, H. Truby, D.J. Millward & G.S. Frost 58A
Cis-9, *trans*-11 conjugated linoleic acid (CLA) improves metabolic and molecular markers of insulin sensitivity in adipose tissue and liver.
F. Moloney, E. Noone, M.J. Gibney & H.M. Roche 58A
Conjugated linoleic acid (CLA) regulates basal and inducible cytokine expression in endothelial cells.
A.A. Sneddon, E. MacLeod, K.W.J. Wahle & J.R. Arthur 59A
Energy and nutrient intake during the menstrual cycle in females living in the United Arab Emirates.
L.I. Sheikh-Ismail, C.J.K. Henry & H.J. Lightowler 59A
'Freshman fifteen' in Liverpool, UK?
L.J. Beasley & A.F. Hackett 60A

What's in a snack? Analysis of meals, snacks and drinks in the UK Women's Cohort Study.
N. Sullivan & V.J. Burley 60A
Symptoms of constipation in children: the influence of physical activity and water intakes.
A. Jennings, G.J. Davies, M.F. Chaplin, V. Costarelli & P.W. Dettmar 61A
Presentation patterns in childhood obesity.
R. Dykes, E. Dickson, D. Harvey & A. Dale 61A
Association between body mass index, health-related quality of life and use of commercial weight-loss services in a sample of obese individuals.
A. McConnon, S.F.L. Kirk, D.C. Greenwood & J.K. Ransley 62A
The role of meat protein in influencing satiety.
F.A. Puglia & C.J.K. Henry 62A
Implementation of dietary and general lifestyle advice in women with polycystic ovarian syndrome.
L. Humphreys, V. Costarelli & G. Conway 63A
Perceived dietary change following advice to simultaneously reduce both dietary fat and sucrose or dietary fat.
C. White, A. deLooy & S. Drummond 63A
A comparison of the effect of advice to simultaneously reduce both dietary fat and sucrose or dietary fat on perceived quality of life.
C. White, A. deLooy & S. Drummond 64A
Can urinary sugars and thiamine be used as biomarkers to assess measurement error in dietary intake data?
N. Tasevska, S. Runswick & S. Bingham 64A
Using the Internet as a tool for finding reports on childhood obesity-prevention and -treatment programmes, with a focus on immigrants new to industrialised countries.
C.A. Flynn & D. McNeil 65A
A Cochrane systematic review of low-glycaemic-index diets for coronary heart disease.
S.A.M. Kelly, G. Frost, V.J. Whittaker & C.D. Summerbell 65A
An evaluation of dual-energy X-ray absorptiometry for assessing body composition.
J.E. Williams, M.S. Fewtrell, N.J. Fuller, C.M. Wilson & J.C.K. Wells 66A
Conjugated linoleic acid supplementation decreases *ex vivo* human peripheral blood mononuclear cell interleukin 2 expression and secretion.
A. Mullen, F. Moloney, A. Nugent, M.J. Gibney & H.M. Roche 66A
Conjugated linoleic acid supplementation in type 2 diabetes.
F. Moloney, A. Mullen, T.P. Yeow, J.J. Nolan & H.M. Roche 67A
Influence of triacylglycerol structure on the postprandial lipaemic response to a symmetrical palmitic acid-rich fat and an asymmetrical palmitic acid-rich fat.
S.E.E. Berry & T.A.B. Sanders 67A
Eicosapentaenoic acid and docosahexaenoic acid decrease the production of pro-inflammatory cytokines by human THP-1 macrophages.
S.M. Weldon, L. Hurley, C. Loscher, M.J. Gibney & H.M. Roche 68A
The role of the mitochondria in apoptosis induced by cholesterol 5β,6β-epoxide and 7β-hydroxycholesterol.
L. Ryan, Y.C. O'Callaghan & N.M. O'Brien 68A
The effect of antioxidants and inhibitors of apoptosis on cholesterol 5β,6β-epoxide-induced cell death in U937 cells.
L. Ryan, Y.C. O'Callaghan & N.M. O'Brien 69A
Associations between cardiovascular risk factors, anthropometric characteristics and gene polymorphism distribution in postmenopausal women: data from a pan-European study (ISOHEART).
K. Vafeiadou, W.L. Hall, A.M. Minihane, C.M. Williams & the ISOHEART consortium 69A

Increased wholegrain food consumption and indicators of adiposity: preliminary results from the CHEW-IT study.
A.R. Jones, M.L. Hepples, J. Coulson, S. Kuznesof, D.P. Richardson & C.J. Seal 70A
A within-laboratory-based evaluation of the self-testing BOD POD.
L. Doyle, J. Gandy & H.D. McCarthy 70A
Programming of appetite and adiposity in male rats is dependent on timing of prenatal nutritional insult.
L. Bellinger & S.C. Langley-Evans 71A
Prenatal exposure to a low-protein diet and programming of fat metabolism.
L. Bellinger & S.C. Langley-Evans 71A
Associations between body mass index and nutrient intakes in early pregnancy.
E.J. Derbyshire, G.J. Davies, V. Costarelli & P.W. Dettmar 72A
Why don't women breast-feed for longer?
K. Berridge & J.C. Abayomi 72A
Supporting women to breast-feed for longer at an infant feeding clinic in Liverpool.
K. Berridge, K. McFadden, J.C. Abayomi & J. Topping 73A
Ethnic differences in parents' attitudes towards feeding their infants in Singapore.
W.M. Han, Y.H. Chan, C.B. Tan & J.B. Morgan 73A
Effect of maternal cold exposure and nutrient restriction on the abundance of mitochondrial cytochrome c and voltage-dependent anion channel (VDAC) in the ovine kidney.
D.P. Yakubu, S. Pearce, A. Mostyn, T. Stephenson & M.E. Symonds 74A
The development of a caffeine assessment tool (CAT) for use in pregnancy.
S.M. Boylan, J.E. Cade, S.F.L. Kirk, D.C. Greenwood, K.L.M. White, S. Shires, A.W.M. Hay, N.A.B. Simpson & C.P. Wild 74A
Methyl group deficiency and tissue methionine cycle activity.
F.A. Wilson, W.D. Rees & G.E. Lobley 75A
A comparison of the sources of vitamin K_1 in the diets of individuals assessed in childhood and in adult life.
K.J. Jackson, C.J. Prynne & M.E.J. Wadsworth 75A
Habitual dietary calcium intake and body weight in 7–10-year-old children.
A. Jennings, V. Costarelli, G.J. Davies & P.W. Dettmar 76A
The effect of increased red and processed meat consumption on endogenous formation of *N*-nitroso compounds in ileostomists.
J.C. Lunn, J.R.A. Pollock & S.A. Bingham 76A
Vitamin B_{12} status in elderly subjects with low haemoglobin.
K.M. Mooney, I.S. Young, C.C. Patterson & G.J. Cuskelly 77A
A pilot survey to investigate the nutritional status of patients with a fractured neck of femur and level of nutritional support provided during treatment.
M. Nematy, M. Hickson, A.E. Brynes, C. Ruxton & G.S. Frost 77A
Validation of a food-frequency questionnaire (FFQ) for assessment of bone health nutrients in a Swiss population: preliminary results.
E. Wynn, M.A. Krieg, J. Cornuz, D.R. Whittamore, P. Burckhardt & S.A. New 78A
Experiences of Women with Chronic Radiation Enteritis indicate the need for dietary advice.
J. Abayomi, J. Kirwan, A. Hackett & G. Bagnall 78A
Development of patient information leaflets for constipation using a range of cognitive interview techniques: LIFELAX.
A.A. Lake, A.L. Brookes, C. Speed, S. Corbett, P.J. Moynihan & A.J. Adamson on behalf of the LIFELAX STUDY TEAM 79A
Weight management: a multi-dimensional approach.
M.E. Barasi, G.S. Mendoza & L.D. Sanders 79A

Evaluation of a pilot community-led weight management service within West Middlesbrough.
C.L. Appleton, C.D. Summerbell, V.J. Whittaker & P. Kelly 80A
Development of a multidisciplinary approach to the prevention and/or treatment of obesity within the Middlesbrough Primary Care Trust.
R. Lang, C.D. Summerbell, H.J. Moore, C.L. Appleton & J. Smith 80A
Preliminary results of the effectiveness of a commercial weight-loss programme compared with usual care in primary care.
C.L. Appleton, C.D. Summerbell, P. Finn, A. Plummer, A. Helmn, T. Mitchell & V. Lawrence 81A
Gender differences in use of an Internet-based weight club.
J. Jonasson, M. Hyll, Y. Linné & S. Rössner 81A
Intensive lifestyle intervention combined with the choice of pharmacotherapy leads to weight loss and improvement in cardiac risk factors in the obese at 6 months and maintenance of weight loss at 1 year.
J. Boyle & G. Frost 82A
Dietary changes induced by the Atkins diet.
R. Boley, A. Herriot, A. deLooy, K. Fox, M.P. Bonham, I. MacDonald, D.J. Millward, L. Morgan & H. Truby 82A
Objectively measured physical activity and inactivity in rural Irish and urban Scottish children: a comparison study.
L.A. Kelly, J.J. Reilly, S. Grant & J.Y. Paton 83A
Food consumption patterns associated with high intakes of cereal and dairy products in Irish adults.
S.J. Burke, S.N. McCarthy, N.A. O'Dwyer & M.J. Gibney 83A
Level of carbonation in a beverage preload increases satiety and decreases subsequent intake.
S.A. Moorhead, R.W. Welch, M.B.E. Livingstone, T.A. McCall & A. Dunne 84A
The nutrient intake of older adults living in sheltered housing accommodation.
C.E. Wood, R. Lang, V. Zohouri, A.J. Adamson, C.J. Seal, J.C. Mathers & P.J. Moynihan 84A
Enteral tube feeding: do patients receive their full prescription of formula?
L. Hill, K. Whelan, P.A. Judd, V.R. Preedy & M.A. Taylor 85A
Gut hormone changes may explain appetite and glycaemic control effects of bariatric surgery.
C.W. Le Roux, S.J.B. Aylwin, S. Shurey, V. Prasad, F. Coyle, P. Darroch, M.A. Ghatei, A.G. Patel & S.R. Bloom 85A
Can differences in filament length explain the effect of mycoprotein on glucose diffusion *in vitro*?
L.I. Marks, A.M. Gallagher, J.J. Strain, G. Rodger & R.W. Welch 86A
Can differences in filament length of mycoprotein explain the effects of mycoprotein on glycaemic responses, appetite variables, and gastric emptying in healthy subjects?
L.I. Marks, A.M. Gallagher, J.J. Strain, G. Rodger & R.W. Welch 86A
The interaction between smoking status and body mass index exaggerates cardiovascular risk factors.
M. Akbartabartoori, C.R. Hankey & M.E.J. Lean 87A
Obesity is a risk factor for adenocarcinoma of the oesophagus.
A. Ryan, S. Rowley, P. Flood & J.V. Reynolds 87A
Prenatal exposure to a low-protein diet programmes a preference for high-fat foods in the rat.
L. Bellinger, C. Lilley & S.C. Langley-Evans 88A

Quantification of the dietary acidity characteristics of the Atkins diet: estimates of net endogenous non-carbonic acid production (NEAP) and potential renal acid load (PRAL).
R.H.T. Gannon, R. Boley, S.A. New, A. deLooy, K. Fox, J.M.C. Wallace, I. MacDonald, D.J. Millward, L. Morgan & H. Truby 88A

Identification of putative biomarkers of oxidative stress: an analysis of rat plasma by surface-enhanced laser desorption ionisation (SELDI) time-of-flight mass spectrometry (TOF-MS).
M.C.Y. Wong, S. Drayton, R. Rajendram, M. Bailey, P.W. Emery, V.R. Preedy & H. Wiseman 89A

Is the ferric reducing antioxidant power assay a good marker of oxidative stress in laboratory animals?
M.C.Y. Wong, E. Lynn, R. Hunter, R. Srirajaskanthan, V.R. Preedy & H. Wiseman 89A

Weight loss decreases lipopolysaccharide-stimulated peripheral blood mononuclear cell tumour-necrosis factor-α, but not interleukin-6, concentrations in overweight women.
L.M. Browning, J.D. Krebs, M.A. O'Connell & S.A. Jebb 90A

Cis-9, *trans*-11 and *trans*-10, *cis*-12 conjugated linoleic acid-induced changes in progression of atherosclerosis, plasma lipids and liver proteome in apolipoprotein E-knockout mice.
B. De Roos, G. Rucklidge, M. Reid, K. Pickard, J. Osada, E. Noone & H.M. Roche 90A

Plasma biokinetics of natural and synthetic α-tocopherol in healthy apolipoprotein-E4 male smokers and non-smokers.
A.R. Proteggente, R. Turner, C. Rota, J. Majewicz, A.-M. Minihane, G. Rimbach, K. Krämer & J.K. Lodge 91A

The effects of isoflavone supplementation on plasma lipid concentrations in postmenopausal women: the ISOHEART study.
W.L. Hall, A. Vafeiadou, C.M. Williams & The Isoheart Consortium 91A

Homocysteine and cardiovascular risk: the Prospective Epidemiological Study of Myocardial Infarction (PRIME).
J.A. Troughton, J.V. Woodside, I.S. Young, C.C. Patterson, D. Arveiler, P. Amouyel, J. Ferrieres, P. Ducimetriere, J.W.G. Yarnell & A. Evans, on behalf of the PRIME Investigators 92A

Retinal vein occlusion, homocysteine and methylene tetrahydrofolate reductase genotype.
J.V. Woodside, S.J. McGimpsey, L. Bamford, R. Graydon, S.E.C.M. Gilchrist, G. McKeeman, C.C. Patterson, I.S. Young, A. Hughes, D. McGibbon, U. Chakravarthy 92A

The effect of vitamin C supplementation on gene expression in primary human monocytes: a human intervention study.
J. Majewicz, C. Rota, R. Turner, A.-M. Minihane, J. Lodge, A.R. Proteggente, K. Kramer & G.H. Rimbach 93A

Curcumin induction of antioxidant response element-regulated genes in primary human monocytes.
S.A. Rushworth, C.A. Charalambos, R.M. Ogborne & M.A. O'Connell 93A

α-Lipoic acid induces haem oxygenase-1 and ferritin expression in human monocytic cells.
R.M. Ogborne, S.A. Rushworth, C.A. Charalambos & M.A. O'Connell 94A

Carotenoid intakes and food sources in 18–64-year-old Irish adults.
Lucey & M. Kiely 94A

Dietary intake and sources of phylloquinone (vitamin K_1) according to age of British adults from a recent national survey.
C.W. Thane & W.A. Coward 95A

Intra-uterine programming of hepatic glutathione in relation to oxidative injury and ageing.
D.V. Sculley & S.C. Langley-Evans 95A

Antioxidant vitamins and their relationship to health parameters in an adolescent population.
S.E.C.M. Gilchrist, J.V. Woodside, D.C. Watkins, G. Cran, C.A.G. Boreham, A. Bingham, J.M. Savage & I.S. Young 96A
Barriers to the consumption of wholegrain foods.
A.R. Jones, S. Kuznesof, D.P. Richardson & C.J. Seal 96A
An investigation of the toxic effects of cholesterol oxide mixtures towards human U937 cells.
E. Ryan, S.M. O'Sullivan & N.M. O'Brien 97A
Phyto-oestrogen concentrations in serum and spot urine as biomarkers for dietary phyto-oestrogen intake among free-living women in EPIC-Norfolk.
Y.L. Low, P.B. Grace, J.I. Taylor, N.P. Botting & S.A. Bingham 97A
Consumption of wholegrain wheat, rye and rice by laboratory animals is associated with elevated plasma concentrations, urinary excretion and faecal output of enterolactone.
A.M.S. Nagah, T. Nurmi & C.J. Seal 98A
Oral ferrous sulfate leads to a marked increase in circulating levels of pro-oxidant non-transferrin bound iron.
C. Hutchinson, W. Al-Ashgar, D.Y. Liu, R.C. Hider, J.J. Powell & C.A. Geissler 98A
Physiological responsiveness to low-dose fish oil intake. The impact of sex, genotype, age and geography: an introduction to the Fingen study.
C.K. Armah, B.M. Kofler, P. Curtis, J. Stannard, L. Farrell, F. Napper, J.P. Grew, J. Luff, E. Miles, G. Lietz, M. Caslake, C. Packard, P. Calder, J. Mathers, C.M. Williams & A.M. Minihane 99A
Effects of the dietary *n*-6:*n*-3 polyunsaturated fatty acid ratio on plasma lipids and lipoprotein subfractions: the 'OPTILIP' study.
I.G. Davies, M.D. Griffin, F. Lewis, S. Slaughter, D.J. Millward, T.A.B. Sanders & B.A. Griffin 99A
Impact of dietary intake on plasma antibody titres to heat shock protein 60.
M. Ghayour-Mobarhan, S.A. New, D. Lovell, D. Lamb, C. Livingstone, T. Wang & G.A. Ferns 100A
Short- and long-term effects of growth hormone on basal and catecholamine-induced lipolysis in pigs.
K.R. Headland, P.L. Sensky, P.J. Buttery, K. Dickinson & J.M. Brameld 100A
Cross-sectional associations of diet and insulin-like growth factor levels in 7–8-year-old children.
I.S. Rogers, D.J. Gunnell, P.M. Emmett, L.R. Glynn, D.B. Dunger, J.M. Holly & THE ALSPAC STUDY TEAM 101A
Laying foundations for health: an investigation into the food provided to under-5s in day care.
P. Nelson, J. Marshall, M. Cooper, H. Zambas, K. Brewster, K. Atkin & H. Moore 101A
Best practices for the prevention of overweight and obesity in children with a focus on immigrants new to industrialised countries: a synthesis review.
D.A. McNeil, M.A.T. Flynn & S.C. Tough 102A
Prevalence of overweight and obesity in Aberdeen primary schoolchildren: a retrospective longitudinal study.
C.M. McDougall & J.E. Crum 102A
The development and evaluation of portion size assessment tools for use with children.
E. Foster, J.N.S. Matthews & A.J. Adamson 103A
The need for a standard assessment of obesity as shown in a 1-year follow-up study of inner-city Dublin schoolchildren.
A.C. Griffin, K.M. Younger & M.A.T. Flynn 103A
Television viewing in adolescence and change in body mass index in the 1958 British birth cohort.
T.J. Parsons, C. Power & O. Manor 104A

An assessment of public health nutrition workforce capacity in Australia: implications for obesity prevention.
R.M. Hughes 104A
Association of physical activity with body composition indices in children aged 6–8 years at varying risk of obesity.
K.L. Rennie, M.B.E. Livingstone, J.C.K. Wells, A. McGloin, W.A. Coward & S.A. Jebb 105A
Physical activity and inactivity patterns in adolescent females living in the United Arab Emirates.
H.J. Lightowler, C.J.K. Henry & H.M. Al-Hourani 105A
The influence of lifestyle factors on obesity in an Irish adult sample.
C.M. Murrin, F. Shiely, S. Friel, G. Nolan & C.C. Kelleher 106A
Social facilitation of eating behaviour: is it just distraction?
L. Newson, A.S. Anderson & M.M. Hetherington 106A
Investigating enhancement of intake by variety: the role of attention.
G.N.M. Norton, A.S. Anderson, R. Foster & M.M. Hetherington 107A
Effect of the presence of fish on the amount of chips served when the thickness of chips is varied.
L.E. Burton & A. Wise 107A
Mothers' educational level is positively associated with overweight among Tehrani adolescent boy students.
B. Mohammadpour-Ahranjani, L. Zellipour, A. Rashidi, N. Kalantari, M. Karandish & M.R. Eshraghian 108A
The effects of self-recording food intake on body weight over 7 d.
S. Whybrow, C. Mayer, T. Kirk & R.J. Stubbs 108A
The Mediterranean Eating in Scotland Experience (MESE) project: impact of an Internet-based, tailored intervention on dietary behaviour.
A. Papadaki & J.A. Scott 109A
Attitudes and perceptions towards healthier eating of older adults residing in sheltered accommodation.
P.N. Hindmarch, C.E. Wood, C.J. Seal, A.J. Adamson, J.C. Mathers & P.J. Moynihan 109A
Mean intakes of fifteen classes of dietary (poly)phenols in subjects following two commercial weight-loss programmes.
R.K. Aylen, M.N. Clifford, D.J. Millward, H. Truby, A. deLooy, K. Fox, P.J. Robson, I. MacDonald & L.M. Morgan 110A
Diet Trials: weight and fat loss in a randomised controlled trial of commercially available slimming diets.
D.J. Millward, P. Tothill, A. deLooy, K. Fox, C.M. Logan, I. MacDonald, L. Morgan & H. Truby 110A
Diet Trials: composition of weight loss in relation to exercise and fitness in a randomised controlled trial of commercially available slimming diets.
D.J. Millward, A. deLooy, K. Fox, M. Davis, M.B.E. Livingstone, I. MacDonald, L. Morgan & H. Truby 111A
Diet Trials: influences of weight loss on lipid-based cardiovascular risk factors in a randomised controlled trial of commercially available slimming diets.
L. Morgan, I. Davies, B. Griffin, A. deLooy, K. Fox, M.B.E. Livingstone, P. Robson, I. MacDonald, H. Truby & D.J. Millward 111A
Effect of two levels of exercise-induced hypohydration on post-exercise rehydration in man.
D.T. Archer, D. Ball, N.A. Lewis & V. Maguire 112A

Relationship between attitudes towards perceived physical activity level and estimated physical activity levels in a representative adult Irish population.
A.P. Hearty, S.N. McCarthy & M.J. Gibney 112A
Household activity is a significant component of physical activity estimation in the Irish population.
F. Shiely, C.M. Murrin, S. Friel, G. Nolan & C.C. Kelleher 113A
What determines a child's intake of fruit and vegetables?
L.R. Glynn, C.D. Steer, I.S. Rogers, P.M. Emmett & the ALSPAC STUDY TEAM 113A
Dietary differences and similarities amongst 5–9-year-old children from schools classified by the new Scottish indices of multiple deprivation.
W.L. Wrieden, J.E. Cecil, I. Murie, C. Bolton-Smith, P. Watt, C.N.A. Palmer & M.M. Hetherington 114A
A city-wide survey of the diet of three cohorts of 9 and 10 year old children in Liverpool in 2000, 2001 and 2002.
A.F. Hackett, M. Gibbon, S. Taylor, G. Stratton & E. Lamb 114A
Children's opinions on food: a culturally appropriate tool for healthier eating in Sandwell.
R.E. Kyle 115A
Is there a link between the increasing use of inhaled corticosteroids to treat asthma and increasing obesity prevalence in children?
J. Gandy, V. Tuffrey & S. Mukhopadhyay 115A
Fat-free mass composition in obese and non-obese children: matched case–control analyses.
D. Haroun, J.C.K. Wells, J.E. Williams, N.J. Fuller, M.S. Fewtrell & M.S. Lawson 116A
The effect of breakfast type on lunch intake in primary school children.
C.M. Strik, J.M. Warren & C.J.K. Henry 116A
Effect of parity on maternal plasma leptin and adipose tissue growth in the resulting offspring.
J. Bispham, J. Dandrea, S. Pearce, D.S. Keisler, T. Stephenson, D.S. Gardner & M.E. Symonds 117A
Fasting ghrelin concentrations in a large cohort of overweight and obese volunteers following four commercial weight-loss programmes.
A.E. Brynes, G.S. Frost, M. Ghatei, S.R. Bloom, A. deLooy, K. Fox, P.J. Robson, I. MacDonald, D.J. Millward, H. Truby & L. Morgan 117A
Addition of alginate fibre to a liquid meal replacement: effects on satiety and food intake.
K.M. Appleton, J. Hill, E. Haddeman, P. Rayment, P.J. Rogers & D.J. Mela 118A
Change in adipose tissue function following a high-fibre diet.
M.D. Robertson, A.L. Dennis, A.S.T. Bickerton, J.M. Currie & K.N. Frayn 118A
Glucocorticoid-independent programming of angiotensin receptor expression in hypertensive rats exposed to a low-protein diet *in utero*.
S. McMullen & S.C. Langley-Evans 119A
The effect of body composition on reproductive performance in C57BL/6J mice.
S.L. Johnston, L.M. Bell, S.J. Murray, B.J. Tolkamp, J. Yearsley, I. Kyriazakis, A.W. Illius & J.R. Speakman 119A
Maternal diet and development of regional adiposity in sheep.
D.S. Gardner, S. Pearce, T. Stephenson & M.E. Symonds 120A
Chronic umbilical cord compression promotes maturation of fetal brown adipose tissue.
M.G. Gnanalingham, A. Mostyn, M.E. Symonds, D.A. Giussani, T. Stephenson & D.S. Gardner 120A
The effect of calcium supplementation during pregnancy on birth weight and length.
A. Djazayery, M. Karandish, F. Moremazi, A. Behrooz, E. Kazerouninejad & M. Mahmoudi 121A

Differences in nutrient intake in Pakistani- and European-origin women in pregnancy.
A. Vyas, J. Oldroyd, L.A. James, A.J. Khan, P. McElduff & J.K. Cruickshank 121A
Faecal microflora and short-chain fatty acid concentrations in patients receiving enteral tube feeding.
K. Whelan, P.A. Judd, K.M. Tuohy, G.R. Gibson, V.R. Preedy & M.A. Taylor 122A
Changes in dietary patterns over a 5-year period in perimenopausal and early postmenopausal Scottish women.
H.M. MacDonald, S.A. New & D.M. Reid 122A
Health-related characteristics and behaviours of dietary supplement users at age 53 years in the 1946 British birth cohort.
S.J. Doherty, S.A. McNaughton, A.A. Paul & M.E.J. Wadsworth 123A
Patterns of vegetable and fruit consumption in compliers and non-compliers with dietary recommendations.
M.M. O'Brien, M.A. Galvin, M. Kiely & A.F. Flynn 123A
Fruit intake of hospital staff: how does it compare with national data?
V. Reid, N. Magoche, P. Fitzpatric, C. Murrin, D. Comerford & C. Kelleher 124A
Knowledge of food safety practices amongst older adults.
P.J. Moynihan, C.E. Wood, P.N. Hindmarch, A.J. Adamson, C. Seal & J.C. Mathers 124A
Dietary practices of a Somali population in Liverpool.
S.M. Salah, J.E.G. Bunn & S.M. Maxwell 125A
Dietary intake and sources of phylloquinone (vitamin K_1) according to social class of British adults surveyed in 1986–7 and 2000–1.
C.W. Thane & W.A. Coward 125A
The effect of cook–hot-hold and cook-chill processing on ascorbic acid levels in potatoes.
R. Halkyard, E. Cowie & S. Cunningham 126A
Turmeric extract may reduce symptoms of irritable bowel syndrome and improve quality of life in otherwise healthy adults: a pilot study.
R. Bundy, A.F. Walker, R.W. Middleton & J. Booth 126A
The effect of physiologically relevant concentrations of dietary anthocyanins on their ability to prevent low-density lipoprotein oxidation in the presence and absence of serum albumin.
J.E. Brown 127A
Immunomodulatory effects of β-sitosterol and β-sitosterol oxides.
Y.C. O'Callaghan & N.M. O'Brien 127A
Genetic taste sensitivity to *n*-propylthiouracil (PROP) is associated with dietary fat intake but not energy density.
D. Miskin & I. Davidson 128A
Effects of the dietary ratio of *n*-6:*n*-3 polyunsaturated fatty acids on clotting factor VII in the fasting and postprandial state: the 'OPTILIP' study.
T.A.B. Sanders, F.J. Lewis, S. Slaughter, M.D. Griffin, D.J. Millward, J.A. Cooper & G.J. Miller 128A
Conjugated linoleic acid suppresses interleukin-12 and enhances interleukin-10 production in murine bone marrow-derived dendritic cells.
C.E. Loscher, K.H. Mills & H.M. Roche 129A
α-Tocopherol protects against D-galactosamine-induced hepatic injury.
M.C.Y. Wong, R. Rajendram, R. Duffy, B. Portmann, H. Wiseman & V.R. Preedy 129A
Absence of milk in the diet is associated with higher bone resorption in postmenopausal Saudi Arabian women.
S.O. Khoja, J.A. Khan, A-R.A. Maimani & S.A. New 130A
Moderate alcohol ingestion acutely inhibits bone resorption in a parathyroid hormone- and calcitonin-independent fashion.
S. Sripanyakorn, R. Jugdaohsingh, S. Davidson, R.P.H. Thompson & J.J. Powell 130A

Risk factors for breast cancer: anthropometric and physical activity results from the UK Women's Cohort Study.
J.E. Cade, V.J. Burley & D.C. Greenwood 131A
A systematic literature review and meta-analysis of the effects of dietary fibre consumption on risk of endometrial cancer.
V.J. Burley, D.C. Greenwood, E.V. Bandera, J. Cade, R. Kalliecharan, L.H. Kushi, J. Moreton & D. Forman 131A
The effects of weight loss and weight gain on biomarkers of breast cancer risk.
M. Harvie, T. Mercer, R. Malik, J. Adams, A. Flyvbjerg & A. Howell 132A
Is dietary micronutrient intake a limiting factor in fetal growth? A comparison of Pakistani and European origin women in Britain.
J.C. Oldroyd, A. Vyas, C. Lambert, F. Pritchard, J. Dry, L. James, A. Khan, P. McElduff & J.K. Cruickshank 132A
Response of lambs fed maize stover treated with urea to supplementation of rumen-protected methionine.
E. Sanchez, M.E. Ortega-Cerrilla, L. Landois, G. Mendoza & S. Buntinx 133A
Dietary organic acids for lactating sows.
N.K. Agrokipiotis & S.P. Rose 133A
Use of wheat straw upgraded by edible mushroom *Pleurotus ostreatus* in rations for sheep.
J. Aceves, M.E. Ortega-Cerrilla, G. Mendoza, R. Barcena & C. Garcia 134A
Overweight and obesity among women in the postpartum period.
P.H.C. Rondo & A. Tomkins 134A
Improvements in mental wellbeing during weight loss on a slimming-on-referral programme.
A.J. Avery, J.H. Lavin, E. Rees, J.H. Barth & S.M. Whitehead 135A
Weight loss and long-term health outcomes in obese individuals.
L. Aucott, A. Poobalan, W.C.S. Smith, A. Avenell, R. Jung, J. Broom & A.M. Grant 135A
Is elevated body mass index associated with an increased risk of mortality in individuals over 75 years old?
G.M. Price, R. Uauy, E. Breeze, C.J. Bulpitt & A.E. Fletcher 136A
Trends in nutrient intake in the Irish population between 1998 and 2002.
C.C. Kelleher, C.M. Murrin, S. Friel & G. Nolan 136A
A comparison of self-reported and clinically measured body mass index in Irish adults.
K. Hayes, F. Shiely, C.M. Murrin, G. Nolan & C.C. Kelleher 137A
Consumption patterns of junk foods in young Irish individuals in relation to body mass index.
G. Nolan, C.M. Murrin, F. Shiely, H. Corrigan, S. Nic Gabhainn, S. Friel & C.C. Kelleher 137A
The effect of snack composition on energy intake and body weight.
S. Whybrow, C. Mayer, T. Kirk & R.J. Stubbs 138A
Effects of snacks on energy intake as a function of habitual level of snack consumption.
S. Whybrow, C. Mayer & R.J. Stubbs 138A
Food insecurity in the UK and attitudes to healthy eating.
H.M. Bukhari, B.M. Margetts & A. Jackson 139A
Leptin entry into the brain from the peripheral circulation *in vivo*.
C.L. Adam, P.A. Findlay & D.W. Miller 139A
Body-mass regulation in the mouse appears to be driven by a lipostat.
C. Hambly & J.R. Speakman 140A
Decreased adiposity in mice lacking inducible nitric oxide synthase supports the involvement of nitric oxide in body fat regulation.
J. Gómez-Ambrosi, S. Becerril, P. Oroz, S. Zabalza, F.J. Muruzábal, M. Archanco, M.J. Gil, M.A. Burrell, J. Salvador & G. Frühbeck 140A
Peptide YY_{3-36}: its effects on rate of eating and meal duration.
S.E. Ellis, R.L. Batterham, S.R. Bloom, M.A. Ghatei & G.S. Frost 141A

Metabolic rate and uncoupling protein (UCP) gene expression in mice selected for high and low food intake.
G.D. Dalgleish, J. Duncan, L. Bunger & J.R. Speakman 141A
Peripherally administered α-melanocyte stimulating hormone (αMSH) increases resting metabolic rate, while peripheral agouti-related protein has no effect, in wild-type C57BL/6 and *ob/ob* mice.
N. Hoggard, D. Vernon Rayner, S.L. Johnston & J.R. Speakman 142A
Gene expression for appetite regulatory neuropeptides in the fetal sheep hypothalamus.
B.S. Mühlhäusler, I.C. McMillen, G. Rouzaud, P.A. Findlay, E.M. Marrocco, S.M. Rhind & C.L. Adam 142A
Phyto-oestrogen compounds for antioxidant studies: acute toxicity and hypoalbuminaemia.
M.C.Y. Wong, V.R. Preedy, R. Sherwood & H. Wiseman 143A
Suitability of the three-component model to track body composition changes following insulin treatment in type 2 diabetes.
I.C. Packianathan, N.J. Fuller, D.B. Peterson, A. Wright, W.A. Coward & N. Finer 143A
A ^{2}H-labelled mixed triacylglycerol test for intraluminal fat digestion.
C. Slater, T. Preston & L.T. Weaver 144A
Apolipoprotein E genotype and blood lipids in EPIC Norfolk.
K.K.H. Wu, R. Bowman, R. Luben, K.T. Khaw, N. Wareham, N.E. Day & S.A. Bingham 144A
